

Raining Ragdolls is a TICA registered cattery.

We take pride in our breedings.

Our carefully bred, well-nurtured kittens are purposed to be adorable, bright, charming, delightful, elegant, friendly, and gorgeous. A precious, pleasant, and synergetic human-cat partnership is what we aspire to bring to our clients.

Health is of the utmost importance in our breeding program. All Ragdolls in our breeding plans are healthy and have a full health clearance. We are a FeLV and FIV-free cattery. Our Ragdolls are routinely checked up by our wonderful veterinarian. Optimal Selection™ is the DNA screen tool we use to ensure our Ragdolls are free of genetic diseases. All of our Ragdolls are DNA tested normal for HCM, PKD, and other 30+ genetic diseases. All kittens that are purchased from us are vaccinated, vet checked, and covered by our 2-year health guarantee.

Temperament is vital to our breeding program. Ragdolls are family-oriented. Whether you are looking for a companion, show prospect, or a breeder, our friendly, sweet, and eager to please Ragdolls will be valuable assets to your success.

We strive to breed our Ragdolls to conform to the TICA standard. Our breeding has an emphasis on good personality, health, sound body, and mind. Our deliberate breeding program is extremely selective. We partner with one other proven breeder who is ethical, professional, and responsible in every way. And I'm very fortunate to call her not only my mentor but also my friend. Our breeding decisions are made only after serious consideration. If you have any inquiries, please read our [FAQ](#) and feel free to [contact us](#).
